Kodak A3 Size Flatbed Accessory

Scan oversized and fragile documents into your workflow
Attach and detach a versatile flatbed in seconds

When originals are too large, bound, or extremely delicate, you need a flatbed accessory to handle these exception documents. When your flatbed can attach and detach quickly, you can keep your productivity flowing. Fast and flexible productivity – exactly what the **Kodak** A3 Size Flatbed Accessory delivers.

Team the A3 Size Flatbed Accessory with a compatible scanner (see back) and you'll be able to quickly scan fragile and oversized documents, as well as books, magazines, thicker items, photo enlargements, and other items. The flatbed accessory attaches and detaches in seconds making it easy to access and store away until needed again.

Flatbed Accessory adds versatility at photo scanning business

"We scan photos without taking them out of an album page which comes in handy, especially for older pictures and albums. This way we don't have to pull a plastic cover sheet off photos and possibly damage them, as the plastic often migrates into the photos over years or decades in an album. The Flatbed Accessory allows us to add this as an extra service to please our customers and ensure that we capture all of their images."

— Owner, Photo Specialty Store, Alabama

Plug in, scan on

The Flatbed Accessory connects and operates easily, and provides a valuable mix of features.

- Connect your Flatbed Accessory, place a document on the glass, and select "scan" to capture high-quality images

- Benefit from all the Perfect Page imaging features your scanner offers when using your flatbed

- Take advantage of Smart Touch functionality – scan to file, e-mail, Microsoft SharePoint and other applications with the push of a button

- Output single- and multi-page TIFF, JPEG, RTF, BMP, PDF and searchable PDF formats when using Smart Touch or **Kodak** Capture Pro Software

- Compact design with a small footprint

- Supported by TWAIN and ISIS drivers (Linux also supported in some instances)

- Includes everything you need to connect and start scanning
